## PROJECT DETAILS

### Complete Garden Redesign Installation

Area: 100 m<sup>2</sup>  
Budget: Unlimited  
Style: not specified - infer from customer description

**Budget: Unlimited** — This design showcases the full potential of your space. If you do have a budget in mind, please let us know and our pricing system will work to it where possible.

## Project Summary

For Lewis in Leicester, this 100m<sup>2</sup> redesign is a contemporary, luxury garden that looks pristine year-round and suits partial sun with a balanced, moderate-maintenance planting approach. One sculptural, standalone modern water feature becomes the single major focal point, positioned to be enjoyed from the patio, with layered lighting (20 fittings) to extend usability into the evening. Decorative screens and trellis add privacy and vertical interest, while a small number of feature trees and well-chosen shrubs provide structure, seasonal texture and year-round presence.

## Key Design Features

- 65m<sup>2</sup> premium large-format stone-effect porcelain paving to form a main entertaining terrace (porcelain tiles only)
- 25m<sup>2</sup> artificial grass lawn as a clean, evergreen central space
- 10m<sup>2</sup> decorative gravel band for contrast, drainage-friendly margins and low-maintenance detailing
- Professional steel edging (40lm) to keep porcelain lines crisp and separate lawn/gravel cleanly
- One standalone modern water feature as the single major focal point
- Lighting scheme: 20 low-glare fittings with 1 transformer and 50m cable to highlight paving edges, feature trees and the water feature
- Two decorative screens plus 6lm trellis panels to add privacy and vertical structure without heavy boundary works
- One defined seating area integrated into the porcelain terrace for lounging/dining

## Pricing Breakdown

### Hard Landscaping
